

## GENERATE AUDIT-READY VALUATIONS IN MINUTES

Qval enables venture capital and private equity firms to generate valuable investment intelligence instantly—including valuation reports, outcome and waterfall models, and scenario modeling.

Using data that flows from a centralized database, Qval's powerful analytics engine uses a proprietary algorithm to generate clear, reliable, accurate investment intelligence on demand.

**Anytime. Anywhere. On Any Digital Device.**

### SMARTER DECISIONS

Qval's proprietary algorithms offer automated decision support for waterfall distributions, term-sheet analysis, and scenario modeling.

### INSTANT VALUATIONS

Reduce time and errors with an automated process that uses the company's capital structure to produce reliable valuation reports on demand.

### AUDIT READY

Create reports or grant read-only access via a secure portal to auditors in seconds. Qval's calculations have been reviewed and accepted by top auditors.

### CENTRALIZED INTELLIGENCE

Qval centralizes all your source documents so that they're organized, easy to manage, and accessible from any location or device.

## KEY FEATURES

### Generate Valuation Reports

with S&P Global Market Intelligence data, scalable workflow, and automated footnote disclosure.

### See Outcome/Waterfall Models

by company, fund, key breakpoints, realized, unrealized, class, and investor returns.

### Run Simulations

for waterfall distributions, investor outcome analysis, and scenario modeling.

### Track Data Elements

back to the original source document with one click.

### Report to Partners

using APIs that integrate with internal and external platforms.

### Share with Auditors

through a dedicated, permission-based portal.

# You create value. Qval quantifies it.

Qval dramatically reduces the time your firm spends calculating value, evaluating exit strategies, and meeting audit obligations. Streamline and enhance portfolio company monitoring, modeling, and reporting so that you can make smarter decisions and spend more time generating value.

The efficiencies gained during the valuation process **exceeded our expectations** and gave us greater control over the entire audit cycle.
