

iLEVEL *Where Data Flows, Capital Follows.*

TURN YOUR DATA INTO A DIFFERENTIATOR

iLEVEL elevates your firm's performance by helping you use investment data to attract capital, communicate transparently, and build rewarding relationships with the LP community.

The iLEVEL platform streamlines and consolidates your data in the cloud, making it easier to access, update, analyze, verify, and share with colleagues and clients. iLEVEL dramatically reduces the time and effort expended by your front and back offices while supporting a new level of integrity, insight, and responsiveness for the entire firm.

FASTER FUNDRAISING

Produce DDQs, respond to requests, and secure commitments faster. With portfolio data consolidated in the cloud from emails, PDFs, and spreadsheets, data is easy to find, cut, and share in any format.

AUTOMATED REPORTING

Meet complex LP reporting needs and demonstrate value creation clearly with a simplified, automated, template-driven process. Generate quarterly reports in a few clicks.

DEEPER INSIGHTS

Fully customizable, interactive dashboards and reports let you analyze and visualize fund and asset performance, including portfolio-wide, individual asset reporting and KPIs.

ENHANCED COMPLIANCE

Manage the escalating business costs involved in meeting complex regulatory requirements and achieve a new level of transparency with iLEVEL's streamlined data management platform.

KEY FEATURES

Automate Data Collection

across your portfolio and consolidate the data into a central repository that serves as a single source of truth for the entire firm.

Perform Cross-Portfolio Analytics

and track investment performance with real-time, standardized reporting on the web, in your Excel models, or on an iPad.

Use Native Excel Add-ins

to flow data securely between desktop spreadsheets and the cloud. Populate spreadsheets—and trace data back to the source document with a click.

Generate DDQs and Quarterly Reports

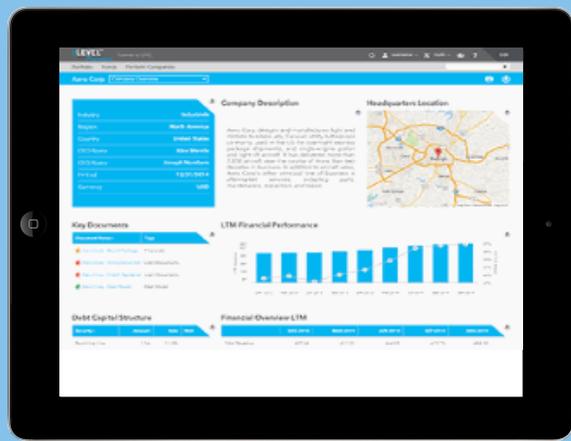

and share actionable insights with investors in any format using flexible, template-based reporting.

Create Audit-Ready Valuations

effortlessly with an optional, fully integrated valuation module that supports a wide range of industry-accepted and IPEV-compliant methodologies.

Enjoy Out-of-the-Box Functionality

with built-in best practices and processes, or opt for a fully customized solution that's designed to reflect your preferred methods.

Chase Opportunity Not Data.

Give your firm the freedom to focus on what really matters. With iLEVEL, your front and back offices spend less time chasing numbers and more time closing deals, creating value, and building relationships.

Full Control...

iLEVEL is a powerful and fully customizable solution that's configured to support your unique business processes. Our deployment team works with you to create a system that meets the needs of your back office, investor relations, deal teams, and senior executives.

...Or Fully Managed

iLEVEL Fusion delivers transformative results faster by combining trusted managed services with an out-of-the-box solution. Leave the data collection to our skilled team and gain instant access to best-practice analytics and reporting, including top-requested calculations and reports.
