

iVAL. Valuations Simplified.

SPEND LESS TIME QUANTIFYING VALUE AND MORE TIME GENERATING IT.

Turn one of your firm's biggest challenges into a quick and painless process with iVAL, a cloud-based valuation solution that is fully integrated with the iLEVEL platform.

iVAL dramatically reduces the time your firm spends calculating value, evaluating exit strategies, and meeting audit obligations. Streamline and enhance company monitoring, modeling, and reporting so that you can make smarter decisions and spend more time generating value.

INTEGRATED DATA

Map iLEVEL data and third-party data sources throughout iVAL for a seamless experience.

PROVEN METHODOLOGIES

Run valuations using a variety of industry-accepted and IPEV-compliant methodologies.

COMPREHENSIVE REPORTING

Generate standardized out-of-the-box reports or create custom reports using iLEVEL's proprietary Excel and web-portal tools.

CROSS-PORTFOLIO VIEWS

Eliminate time-consuming and error-prone tasks with at-a-glance performance statistics, including multiple of invested capital and gross IRR calculations.

KEY FEATURES

Multiple Valuation Methodologies

enable you to run valuations based on guideline public companies, benchmark transactions, discounted cash flows, and other approaches.

Robust Portfolio Analytics

allow you to quickly and accurately track performance and compare results over any period of time.

Secure Auditor and Advisor Portals

provide user-defined access to iVAL. Alternatively, generate one-click valuation reports in PDF or Excel.

System Flags

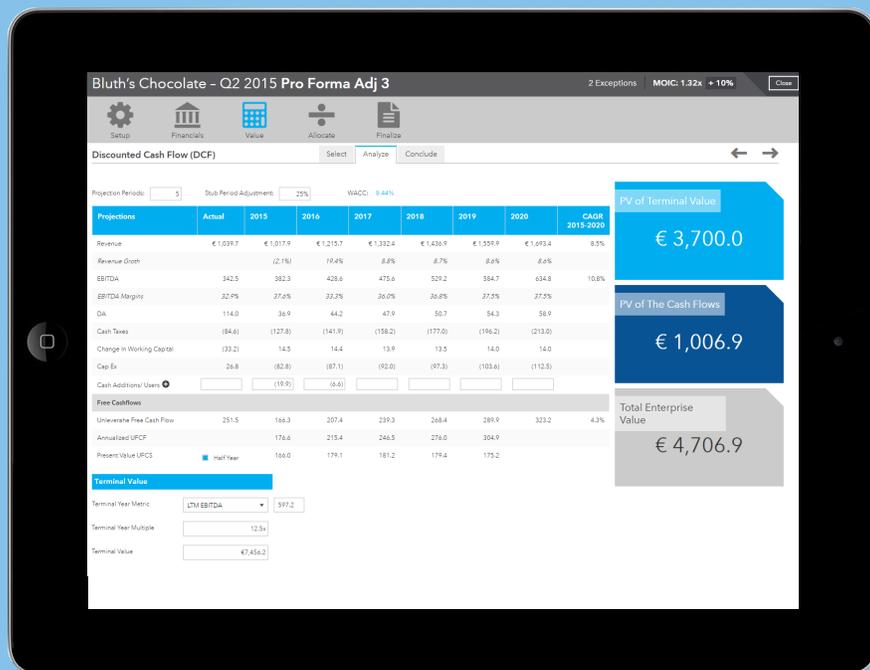

alert you to areas where additional support may be needed to maintain best-in-class, audit-ready documentation.

A Centralized Repository

enables you to substantiate your valuation assumptions by capturing comments, rationale, and supporting documents.

Support for Multiple Currencies

lets you track and value global portfolio holdings in their native and fund currencies.

Streamlined Valuations.

Smart Decisions.

iVAL transforms the valuation process from a complex, time-consuming task into a streamlined, flexible, effortless process. Flow data directly from the iLEVEL platform and use proven, accepted methodologies to model multiple scenarios, weight various approaches, and generate trusted, transparent reports with one click.
